There are lots of important things that must occur for a summer to be truly great. You need strumming guitars, fun activities, new skills, new friends, water play, and clothes covered in paint and lost voices, just to name a few. All of those things, plus hundreds more, are part of the camp experience at Temple Beth Torah Sha’aray Tzedek Camp Mah-Tov. But these things are not what make us great. Though we have a beautiful facility where our campers enjoy swimming, H2O Zone, playground, art, music, sports, gymnastics, cooking, and amazing field trips, they are not what make us different.

What makes TBTST Camp Mah-Tov great, and why we are different from everywhere else, is our staff. From our team of seasoned camp counselors, who are year round Early Childhood Teachers, to our newest Jr. Counselors, our staff understands our priorities (safety, fun, community, and informal education) and they believe in the importance of summer camp. They are highly trained to be supportive, to build bonds within the camp community and gently help even the youngest campers step outside of their comfort zone, challenging them to take positive risks and engage in independent decision making. At Camp Mah-Tov, we know that camp is an experience that a child holds forever. And we know that a break from school is not a break from learning. Our goal, for all of our campers, is for this summer to be the most enriching experience of their lives.

This summer we will be offering a wide variety of camp experiences. We have programs for all ages and for every type of camper. We offer flexible enrollment options from the entire 8 week summer, 4 week sessions or weekly enrollment. Our camp is inclusive and offers a variety of programs to meet the needs of all our campers. Most importantly, Camp Mah-Tov is extremely safe.

A recent study done by the American Camping Association found that 96% of campers said that “camp helped them make new friends,” and 92% said, “camp helped me feel good about myself.” Seventy percent of camp parents said, “My child gained self-confidence at camp.” These statistics are impressive, but if you still aren’t convinced, try and remember your days at camp. Talk to a friend about their camp experiences. Or even better, talk to a family that has been involved in our programs.

If you have any questions about camp, please contact us. We look forward to seeing you soon!
